

British Orthopaedic Research Society 2017 – Imperial College, London.
Innovations in Orthopaedics
4-5th September 2017

Save the date for BORS **4-5th September 2017** at Imperial College (London) hosted by the Musculoskeletal Lab. The abstract call will be sent out in April 2017.

The Musculoskeletal Lab at Imperial College will host BORS 2017 on the South Kensington Campus in central London

The meeting comprises a mixture of clinical and scientific sessions with about **150 delegates**. This is a real opportunity to hear some major invited researchers. Abstracts are published in the journal of [Bone and Joint Research](#) and [Bone and Joint Journal](#).

Prof Justin Cobb
Chair in Orthopaedic Surgery (Imperial College)
Pioneer in personalised orthopaedic medicine

Prof Elaine Dennison - Honorary Consultant in Rheumatology (Univ. Southampton)
Influence of development and lifestyle on aging

Prof Daniel Prieto
Alhambra – NIHR Clinical Scientist (Univ. Oxford)
Applying (big) 'real world' data to Orthopaedic research

Dr Chantal Chenu – Reader in Bone Cell Biology (RVC London)
Multidisciplinary approach to managing bone disease and repair

Prof Julian Jones – Biomaterials (Imperial College)
Novel research bringing tissue regeneration into the clinic

Dr Jonathan Jeffers – Snr. Lecturer in Medical Eng. (Imperial College)
Designing novel hip implants and exploring additive manufacturing

BORS is the premier UK society for Clinical and Academic Orthopaedic and Musculoskeletal related research. It is a multidisciplinary association founded in 1961 and devoted to pursuing research relevant to orthopaedic and musculoskeletal science and surgery.

The research interests of its membership (currently over 700) are varied and include: Biological Science, Biomechanics, Tissue Engineering, Osteoarticular Pathology, Interventions, Biotribology, Molecular Biology, Bioengineering, Medical Imaging, Patient Management and Clinical Outcomes etc.

We hope that you will join us at BORS 2017!

We look forward to working with you over the coming year, please do not hesitate to contact us with any questions. Abstract calls and registration deadlines will follow shortly.

Best wishes

Dr Richie Abel
